

CSAE / Child Safety Standards

Application: Vanilla: Gay Dating & Chat

Developer: Berkay AKIN

1. Introduction

This document outlines the Child Safety and CSAE (Child Sexual Abuse Exploitation) Standards of Berkay AKIN, the developer of the mobile application "Vanilla: Gay Dating & Chat". It describes the policies, procedures and safeguards implemented to ensure full compliance with child protection requirements and Google Play's Child Sexual Abuse Material (CSAM) policy.

2. Application Summary

Vanilla: Gay Dating & Chat is a social networking app exclusively for adults (18+) to meet and communicate with other users.

3. CSAE / Child Safety Policy

- The developer strictly prohibits any form of child sexual abuse exploitation or sexual content involving minors within the application or related services.
- Any content involving individuals under the age of 18, including partial or non-explicit sexual material, is considered illegal and strictly forbidden.
- If any user attempts to upload, share or distribute CSAM or CSAE content, the user's account will be immediately suspended, and the case will be reported to the appropriate authorities.
- The developer provides a reporting channel for users to flag inappropriate or potentially abusive content.
- Reports are reviewed without delay, and appropriate actions are taken following relevant child protection regulations.
- Our organization maintains full compliance with Google Play's 'Child Sexual Abuse Material' policy as well as all applicable international child protection standards.

4. Reporting Mechanism

Users can report inappropriate or suspicious content by contacting:

CSAE Contact

Email: siratofficial@gmail.com

All reports are reviewed promptly and handled with strict confidentiality.
